Winners of the high school chemistry contest, the high school chemistry teacher-of-the-year, and the outstanding junior chemistry students at area colleges and universities were celebrated recently at the St. Louis Section-ACS Recognition Night. The annual event recognized students who are excelling and students who are seeking opportunities to improve. These awards are conferred to encourage students to develop their skills and to further their career goals. Students who participated in the academic or extracurricular activities received recognition for their achievements.

Recognition Night celebrated and recognized excellence in the field of chemistry. Nominees were selected based on their significant contributions to the field of chemistry, their potential to further the advancement of the profession, and their leadership qualities. The winners were chosen based on their academic achievements, research contributions, and leadership roles.

The ACS Midwest Award recognizes outstanding achievements made in chemistry in the Midwest region. The award is conferred to encourage students to develop their skills and to further their career goals. Students who participated in the academic or extracurricular activities received recognition for their achievements.
